**Maryland Scholastic Hockey League Rules on Transfers** (effective for the 2006 - 07 season)

**Transfers.** The MSHL discourages the transfer between schools strictly for athletic advantage. Transfers must be approved by the MSHL prior to the transferring player being eligible to play. The League has established the following general provisions for transfers:

- a. Absent of a geographic move, the MSHL Commissioner must approve the players transfer before they can be added to the roster. The Commissioner will follow the rules given by the Maryland Public Secondary Schools Athletic Association and its County Athletic Associations.
- b. If a school drops ice hockey as a sport, the student may play for another provisional team the following season without penalty, subject to provisional team regulations.
- c. If a student's provisional team becomes a full member and that student was not enrolled at the school. he or she may play for another provisional team without penalty.
